Experience

Present
Dec, 2016

Full Stack Web Developer
3Five8 Technologies Pvt Ltd, Bangalore

— Develop Hybrid Mobile Application.
Rewritten complete Ionic 1 application to Ionic 2 which **boosted app's speed by 50%**.

— End-to-End Payment Gateway Integrations of Razorpay, Paytm, Payfort (Middle East Customer), Stripe (Canada Customer).

Optimised server to server callback flow of payment gateway by using **redis data store**, which reduced a single network call time from over **5 secs to around 80ms**.

— Introduced Angular 2 in the company and laid foundations for migrating various web section from basic html, PHP to Angular 2 and Http network calls.

— Develop APIs for ADDA App, ADDA Admin App, ADDA Security App using php and mysql as the backend tech.

— Develop constantly evolving company website.

Dec, 2016
Sep, 2015

Associate System Engineer
Tata Consultancy Services, Bangalore

— Worked on developing backend scripts for Industrial tools for the use of monitoring production servers, developed small automation tools with java and shell script for extracting logs from servers

—Automating log portal for presentation with Angular which was earlier done by creating ppt. This eliminated total time which was getting wasted on manual work.

Sep, 2016
Dec, 2016

Side Projects
— Delivered 3 Front-End Websites to client built using HTML, SASS, JQuery.
